

Where Artistry and Elegance Meet Superior Engineering

Transform Your Outdoor Living Spaces with Kadenz Aluminum Railing

Kadenz Aluminum Railing is the best choice for your deck project. Our sleek and sturdy options allow you to tailor your railing not only to your home and yard, but to your style and personality.

With two top rail profiles, multiple newel post sizes, three infill options and a full line of lit or unlit post caps, you can create your dream space with a railing that fits your unique style.

A Superior Product

At Kadenz, we pride ourselves on producing a quality product that will exceed the expectations of our partners and end customers. Our superior manufacturing processes means that Kadenz railings are:

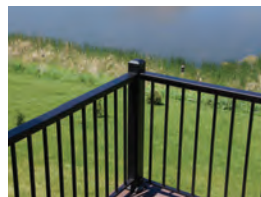

- Easy to install, saving contractors time and money on every job
- Low maintenance, Kadenz railings will never rust
- Strong and sturdy, featuring all welded aluminum construction, seamless connections and pickets that will not come loose
- Durable, AAMA 2604 Powder coat finish provides long-lasting finishes resistant to chalk and fade
- Safe, tested to the highest third-party safety standards with an internal post to top rail connection that provides superior strength (Elegance Series)

Why Kadenz?

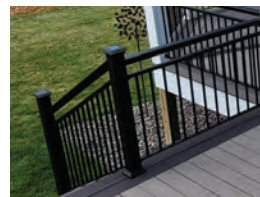

- Over 40 years of precision manufacturing experience
- Comprehensive support for our dealer and distributor partners, your success is our success
- We don't cut corners to save costs
- Kadenz is ICC certified and our products are rigorously tested to ensure safety and code compliance
